

**3rd International Conference on Technologies for Energy, Agriculture, and
Healthcare (ICTEAH 2026)
16th -17th April, 2026**

**Organised by
K J Somaiya School of Engineering**

Submission guidelines and ethics:

Authors are requested to submit their full-length manuscript in the given format within notified due date through the Microsoft CMT. Page limit for full-length manuscript is six pages. Format your paper according to the conference template before submission. No podium no paper policy will be followed.

Academic ethics:

Only original unpublished work before to be submitted to the conference for further consideration. Submitted work could be experimental, theoretical or computational and not under consideration for publication elsewhere. Papers found to be in violation of plagiarism are rejected or withdrawn from conference.

Reviewing Process:

A preliminary review will be conducted by conference editors to make sure that all papers are within the scope of this conference, if not, the submission will be rejected. The author names, emails and affiliations will be removed (double blind review) when they are sent to conference reviewers for peer-review.

Each reviewer will be asked to fill in the reviewing form and 7 criteria's in total are to be scored (Good/average/insufficient), including:

- **Originality/ Value addition:** Is the work original and have any contribution to the scientific field
- **Subject relevance to Conference:** Is the work relevant to conference theme
- **Completeness of the work:** Does the article include the following parts: Abstract, Keywords, Introduction, Methods and Materials, Conclusions, and References
- **Theoretical &/or Practical Contribution:** Is the methodology adopted in a reported article has any contribution to the field
- **Clarity in writing tables, graphs and illustrations:** Are the figures and tables are clear and with proper caption

ICTEAH 26'

- Communication/ Written English: Is the language of the article is accurate or need further improvement.
- Comment: Reviewers are asked to give comments on article

At the end of the form, the final decision of **Accept/Revision/Reject** should be selected. When it is marked by Revision, we will have a double check of the revised papers before final acceptance.
